

# Buttonhead Phillips Screws

Model SPHPEIM( )-(L)

**PEI** Polyetherimide / Advanced Engineering Plastics

PEI is amorphous thermoplastic, high performance resins. It offers outstanding elevated thermal resistance, high mechanical strength, stiffness and dimensional stability over a broad temperature range, inherent flame resistance, hydrolytic stability, and broad chemical resistance.

**Product Properties**

1. Dimensional Stability.
2. Long-term heat resistance.
3. Environmental & stress cracking resistance.
4. Low flammability, low smoke generation and toxicity.

**Applied industries**
