

# Gaskets

Model WPEIM( )

**PEI** Polyetherimide / Advanced Engineering Plastics

PEI is amorphous thermoplastic, high performance resins. It offers outstanding elevated thermal resistance, high mechanical strength, stiffness and dimensional stability over a broad temperature range, inherent flame resistance, hydrolytic stability, and broad chemical resistance.

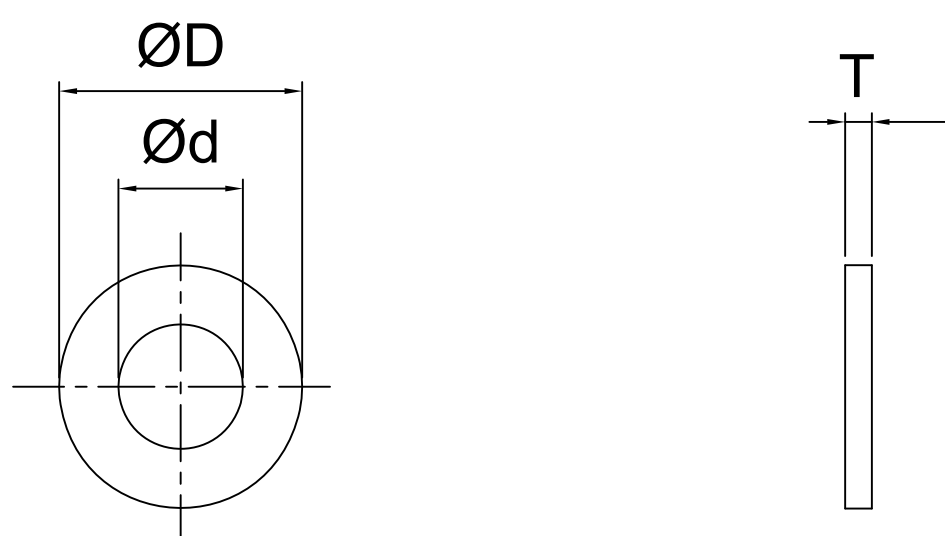

**Product Properties**

1. Dimensional Stability.
2. Long-term heat resistance.
3. Environmental & stress cracking resistance.
4. Low flammability, low smoke generation and toxicity.

**Applied industries**

## Specs

Model: WPEIM( )

M	3	4	5	6	8	10	12
Dxd	7x3.2	9x4.3	10x5.3	12.5x6.4	17x8.4	21x10.5	24x13
T	0.5	0.8	1	1.6	1.6	2	2.5
