

Set Screws

Model HSPEIM()-(L)

PE Polyetherimide / Advanced Engineering Plastics

PEI is amorphous thermoplastic, high performance resins. It offers outstanding elevated thermal resistance, high mechanical strength, stiffness and dimensional stability over a broad temperature range, inherent flame resistance, hydrolytic stability, and broad chemical resistance.

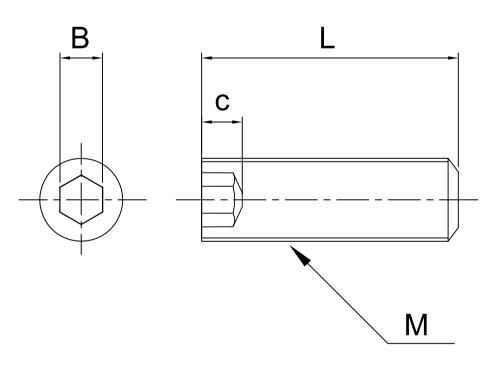

Product Properties

- 1. Dimensional Stability.
- 2. Long-term heat resistance.
- 3. Environmental & stress cracking resistance.
- 4. Low flammability, low smoke generation and toxicity.

Applied industries
